

系統應用軟體

Chap 1

?

系統 (System) ?

- * A **system** is a set of interacting or interdependent components forming an integrated whole or a set of elements (often called 'components') and relationships which are different from relationships of the set or its elements to other elements or sets.
 - * From <http://en.wikipedia.org/wiki/System>

軟體 (Software) ?

- * Computer software, or simply software is any set of machine-readable instructions that directs a computer's processor to perform specific operations.
 - * From <http://en.wikipedia.org/wiki/Software>

應用 (Applications) ?

- * **Application** software, computer software designed to help the user to perform specific tasks.
- * From <http://en.wikipedia.org/wiki/Application>
